PROFESSIONAL SUMMARY

Hybrid profile bridging media operations and software: 4+ years in mission-critical broadcast and streaming operations for Disney and ESPN (GRUP MEDIAPRO) and an advanced Programming student at UTN. I design and implement automations with Python, SQL, Google Apps Script and n8n, and use AI tools to speed up development and optimize operational workflows.

Currently running content insertion and continuity for 60+ events per month across Latin America, Central America and Mexico, focused on quality control, incident management and documentation. Targeting media technology, solutions implementation and workflow automation roles.

CORE COMPETENCIES

- Implementation: Requirements gathering, workflow design and optimization, prototyping, user testing and technical documentation.
- Automation, data & AI: Python, SQL, Google Apps Script, n8n, Java, Git and GitHub; AI-assisted development (Cursor) and conversational flows.
- Operations: Streaming operations, content insertion, continuity, playout, broadcast automation and signal QC.
- Support & incidents: Software, server and network troubleshooting; incident management, escalation and failure documentation.
- Coordination: Real-time work with regional LATAM and US teams, in Spanish and English.

PROFESSIONAL EXPERIENCE

Content Insertion Operator — Disney Streaming (LATAM) | GRUP MEDIAPRO

Mar 2026 – present · Buenos Aires, Argentina

- Run continuity and content insertion for Disney Streaming feeds across Latin America, Central America and Mexico under international technical standards.
- Manage a calendar of 60+ events per month: live broadcasts, sign-ons and sign-offs, commercial insertions, bumpers and digital events for ESPN on YouTube.
- Execute and validate commercial breaks, monitoring sync, transitions and signal continuity.
- Perform quality control (QC), catch deviations, document incidents and escalate failures to prevent dead air and insertion errors.
- Coordinate in Spanish and English with regional and US teams during real-time operations.

IT Support & Automation — Laboratorio Boccacci | Independent project

Feb 2024 – Apr 2026 · Buenos Aires, Argentina

- Provided IT support to reception, biochemistry and admin staff; solved hardware, software, access, network and systems issues.
- Gathered requirements and designed a Google Sheets, Forms and Apps Script prototype to manage protocols, validate data, organize work plans and generate reports.
- Ran user testing and evaluated the solution against commercial alternatives and available integrations.
- Built Python scripts for data processing and report automation.

Master Control Switcher — ESPN | GRUP MEDIAPRO

Nov 2023 – Oct 2025 · Buenos Aires, Argentina

- Operated real-time automation systems for ESPN sports broadcasts.
- Detected and resolved software, server and network incidents, coordinating with Engineering, NOC and remote support.
- Documented recurring failures and improvement opportunities; optimized workflows and operating procedures.

Broadcast Operator — LVP · Liga de Videojuegos Profesional | GRUP MEDIAPRO

Jan 2022 – Nov 2023 · Buenos Aires, Argentina

- Ran esports broadcasts and live content through semi-automated workflows built on vMix, OBS Studio and Companion.
- Integrated real-time data into control panels and supported playout and graphics applications.
- Coordinated technical setups, documented processes and monitored signal stability during operation.
- Worked on-site stadium finals (San Lorenzo arena and Costa Salguero) and online finals for League of Legends, Counter-Strike and Free Fire.

Broadcast Assistant — 1Block | Alongside LVP

Sep 2022 – Dec 2022 · Buenos Aires, Argentina

- Operated and supported Ladder League tournaments and live content.

Video Editor & Camera Assistant — Overbright Studio

2017 – 2020 · Buenos Aires, Argentina

- Edited and post-produced music videos with Adobe Premiere Pro and After Effects.

SELECTED TECHNICAL PROJECTS

- Operational automation for a clinical lab (Real-world implementation): A Sheets, Forms and Apps Script prototype to manage protocols, validate data, plan work and generate reports, with companion Python scripts. [Google Apps Script, Sheets, Forms, Python]
- Semi-automated broadcast workflows (Broadcast · LVP): Companion button decks and macros over vMix/OBS, plus real-time data feeding control panels. [vMix, OBS Studio, Bitfocus Companion, Live data]
- AI chatbot (Academic project): Conversational flow design and AI-driven response automation. [AI / IA, Conversational design, Automation]
- Delivery route optimization (Academic project): Data processing and route optimization in Python. [Python, Data processing]

TECHNOLOGIES & TOOLS

- Programming & data: Python, SQL, Java, Spring Boot, TypeScript, MongoDB, Google Apps Script, n8n, Git, GitHub, Google Workspace
- Automation & applied AI: n8n, Google Apps Script, AI-assisted development (Cursor), Chatbots & conversational flows, Report automation, Bitfocus Companion
- Implementation: Requirements gathering, Workflow design, User testing, Technical documentation
- Operations & support: Incident management, Troubleshooting, Escalation, Networking, Windows, Office 365, Process documentation
- Broadcast & streaming: Content insertion, Continuity, Playout, Broadcast automation, Master control, Signal QC, vMix, OBS Studio, Bitfocus Companion, Live graphics
- Audiovisual: Adobe Premiere Pro, After Effects, Camera, Post-production

EDUCATION & CERTIFICATIONS

- University Technical Degree in Programming — Universidad Tecnológica Nacional (UTN) · 2024 — Dec 2026 · Advanced student · expected Dec 2026
- University Technician in Audiovisual Production — Universidad Nacional de Lanús (UNLa) · 2018 — 2022 · Completed
- Information Systems Engineering — Universidad Tecnológica Nacional (UTN) · 2015 — 2017 · Not completed · 10 courses passed
- Cursor with Python: AI-assisted development — Santander Open Academy · Aug 2025 · 8 hours · 2 modules · self-assessment

FEATURED BROADCASTS (LVP)

On-site stadium finals: Unity League Flow 2023 Grand Final (Costa Salguero · Argentina Game Show (AGS Flow)); Liga Master Flow Grand Final · Clausura 2022 (San Lorenzo arena (Buenos Aires)). Online finals: Supercopa Flow Final, Unity League Flow Apertura Final, Retadores Free Fire Final · Clausura, Ladder League.

LANGUAGES

Spanish: Native · English: Upper-intermediate (B2) — Strong comprehension of technical docs and meetings; day-to-day operational coordination in English.
